Experience

Primewise Consulting

Oct 2023 - April 2024

Web Developer Intern

Remote

- Developed and maintained web applications using **React.js**, **Next.js** for server-side rendering, and **Node.js/Express.js** for backend services, ensuring high performance and scalability.
- Enhanced user experience by implementing responsive designs using **HTML** and **Tailwind CSS**, optimizing interfaces for various devices and improving load times by 20%.
- Collaborated with cross-functional teams to deliver features on schedule, adhering to agile development principles.
- Actively participated in code reviews, ensuring code quality and adherence to project requirements and timelines.
- Utilized **Git** and **GitHub** for version control and team collaboration, contributing to over 100 pull requests across multiple projects.

Solitaire Infosys

Aug 2022 - Oct 2022

Summer Internship in Angular

Mohali, Punjab

- Completed a 45-day internship focused on building dynamic single-page applications (SPAs) using **Angular**.
- Implemented responsive and visually appealing user interfaces with **HTML**, **CSS**, **Bootstrap**, and **Angular** components.
- Gained proficiency in building reusable components and services, improving the maintainability of web applications.

Projects

Shopping Website / [Site Link](#) / [Source Code](#)

Technologies: Angular, TypeScript, HTML, CSS

- Developed a dynamic shopping web app with core features like product categories, tab filters, search bar, and cart functionality.
- Leveraged **Angular components** to improve **code reusability and maintainability**, streamlining future feature additions and reducing development time by 25%.
- Implemented a fully responsive design, ensuring optimal performance and user experience across multiple devices and screen sizes.
- Integrated real-time updates for product listings and shopping cart, enhancing the overall user interaction flow.

Authentication and User Profile System | [Source Code](#)

Technologies: MERN Stack, Tailwind CSS, Cloudinary

- Built a comprehensive user authentication system with functionalities including **OTP verification**, **login**, **profile updates**, **profile deletion**, and **password reset**.
- Implemented **JWT (JSON Web Tokens)** for secure, token-based authentication, ensuring that user sessions are protected across the platform.
- Developed **REST APIs** for user management (POST, GET, PUT, DELETE) to handle CRUD operations efficiently.
- Used **bcrypt** for password encryption to enhance data security and protect against common vulnerabilities.
- Integrated **Cloudinary** for secure, scalable image storage and management, optimizing the system for faster load times and easier media handling.
- Designed the system with **Tailwind CSS** for a modern, responsive UI. Education

Kurukshetra University

Kurukshetra, Haryana

Master of Computer Applications (GPA: 7.38)

Aug-2021 - Jun 2023

Dyal Singh College

Karnal, Haryana

Bachelor of Computer Applications (GPA: 7.07)

July-2018 - Jun-2021

Technical Skills

Languages: JavaScript, TypeScript, C, & C++,

Front-end Technologies: React.js, Next.js, HTML, CSS, Tailwind CSS, & Bootstrap.

Backend Technologies: Node.js, Express.js, REST APIs, MongoDB

Tools & Version Control: Git, GitHub, Visual Studio Code, Postman, Figma, Cloudinary
